

SHIELD (Suspect interrogation)

Ashton Bell

1. When did you discover the lung issue concerning your son?

Without halting for a sec, he quickly replied, "A year ago Crystan was diagnosed of lung disorder and I took no time in enrolling for lung reception".

2. Didn't you get frustrated after you were not finding your son climbing the recipient's list?

Smiling a bit but the smile vanished quickly and then he said, "It's obviously frustrating for a father seeing his son suffering the calamities of life. But indeed, I could do nothing but just wait."

3. Do you know Mr. Jasper Pixley?

Thinking a bit and stammering he stated that he knew him as he was amongst the lung donor whose blood group is AB-ve.

4. But the information you are stating is always highly secured. How did you come to know about this?

His throat gets dry and sweat rolling over his forehead he said, "I needed to know the list of donor's so that I ask them for lung donation, so by fooling the authorities I managed to get the list."

5. What were you doing in the between 8:30 to 9:30 last night?

Again a frightened Ashton replied, "I was ... I was a bit busy with my office work."

6. How would you defend yourself after you are charged with these crimes?

Frightened Ashton, scratching his chin and not maintaining proper eye contact stated that all the things he had done were only to see his son have a last laugh and nothing and the faith.
